REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose the following limitations of the applicant's claimed and disclosed invention:

A surgical probe having a proximal and distal electrode and an insulator, a hollow body extending from a handle the distal end of the hollow body forming the distal electrode, the hollow body comprises a portion of smaller outside diameter wherein the portion of larger outside diameter comprises the distal electrode and wherein the portion of smaller outside diameter is externally enclosed by and supports the proximal electrode and the insulator thereon, wherein the insulator electrically insulates the proximal electrode from the enclosed distal electrode, with the insulator comprising an insulating layer supported on the hollow body and positioned in a radial direction between the hollow body and the enclosing proximal electrode; the hollow body of the distal electrode further comprising a fluid passage in the interior thereof, configured for passage of a cooling fluid therein.

The combinations of the claimed limitations are novel and found to be allowable over the prior art. The cited reference taken singly or in combination does not anticipate or make obvious the applicant's claimed invention.

Allowable Subject matter

Claims 1-4, 6-8 and 10-12 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
